

Content Creation:

OPTION 1:

Last prime day, over 1M purchases were made causing billions of packages to be delivered using ICE trucks. We wince at the thought that heavy-duty vehicles account for 24% of all U.S. greenhouse gas emissions from the transportation sector 🌍. #Harbinger

OPTION 2:

Amazon Prime Day resulted in 1M purchases and billions of packages delivered using ICE Trucks last year. We finch at the idea that heavy-duty vehicles account for 24% of all U.S. greenhouse gas emissions from the transportation sector. Does saving money cancel out saving the atmosphere? 💰 #Harbinger

OPTION 3:

With over 1M purchases, Amazon Prime Day leads to the use of ICE trucks delivering billions of packages. We harrow at the thought that heavy-duty vehicles account for 24% of all U.S. greenhouse gas emissions from the transportation sector. Save money or save the Earth? 🔥🌍 #Harbinger

OPTION 4:

Amazon Prime Day exposes the atmosphere to greenhouse gas emissions at a staggering rate with over billions of packages delivered by ICE trucks. We are mortified at the thought that heavy-duty vehicles account for 24% of all U.S. greenhouse gas emissions from the transportation sector. 💰 or 🌍? We believe that you can save money while also supporting a healthier environment. #Harbinger
